INTERESTED? CURIOUS? WANT TO KNOW MORE?

READ ON!

Exchange programs, which are government-approved, are available with the following five countries:

DENMARK

France

HOLLAND

Japan

UNITED KINGDOM

Other countries will be added to this list as soon as arrangements are completed with the respective governments and organizations.

FANTASTIC! UNREAL!

What an opportunity, and it can be yours if you are planning a career in agriculture or horticulture. You will be able to broaden your understanding of other cultures, and gain an appreciation of rural life, customs and people in a foreign country.

Your practical knowledge and experience will be expanded as you work and learn about differing methods of agriculture and horticulture.

WHO IS ELIGIBLE?

An applicant must meet the following requirements:

- Have at least two years of practical experience in agriculture or horticulture. One year of this experience could be attained at an agricultural or horticultural school.
- Be 18 to 28 years of age.
- Be in good health.
- Have a current driver's license.

For many years, the Ontario Ministry of Agriculture and Food has placed young people from these countries on Ontario farms. The opportunity for a similar experience abroad is now being offered to Ontario's young people.

If you are interested, tear off and complete the attached form and mail it today. It will take about three months to process your application and make the necessary arrangements. Be sure to send your application in early.

Any Ontario farmer interested in becoming a host (farmer) for young people from foreign countries may also return the attached form for more information.
